

# The Wisconsin Early Mustangers

"A FEW TO PRESERVE THE BEST"

## "The Feedbag"

August 11, 1980

Dear Mustang,

Well, another month has slipped by. This Summer will be gone before we know it. There is still a good amount of Mustang time left before winter sets in though. We are going to set up one more "over the road" trip yet, if all goes well. Also as we slip into the Fall season, we will start to concentrate on some of the more businesslike functions of running the club. Things that a person likes to put off when the good driving weather is here. We will try to get our club jackets, display signs and our business/introduction cards squared away.

Here are some highlights of the July 28th meeting: Over half of the club members were in attendance, keep up the good work. We discussed the success of our trip to the Mississippi and set up a committee for our tentative Fall trip. The final decisions on the Club jackets and display signs were tabled to the September meeting. We are exploring the possibility of getting our business/introduction cards printed up in the near future. Stick on name tags were suggested at our meetings due to the size our group. After the meeting four new members were signed up. Kurt Cannon, Roger Nickolaus, Jim Libbey and Marlene Witczak welcome to the club. Slides of the Mississippi trip were shown, and two photo albums of the same were passed around. We sure have some good photographers within our ranks!

The next meeting will be our picnic/meeting Saturday August 23 at Willowood Park. The area will be ours from 9:00 A.M. on. The meeting will be held at 1:00 P.M. Hope we have a nice turn out and some weather in our favor, again. Map is enclosed. Our thanks to Bob P. Beauparland for his excellent organization efforts, let's not let him down.

Keep on Mustangin'

### Classifieds

#### For Sale:
