"A Few to Preserve the Best"

Preservation - Restoration - Enjoyment - Dedication - Education

Hello Mustangers!

Boy, it has been a minimal precipitation summer. The great weather leaves little excuse for not cruising around in the Mustang. Car show attendances have been great! Unfortunately, we were not able to make it to Joe's K Ranch car show. Hope it was good. The Ewald's show in Oconomowoc had a fabulously packed turn out.

We will be extending the Mustangs and Historical Markers through October! Since the weather has been very cooperative, let us keep cruising around and shooting pictures of our rides and historical markers! When you do get some great shots of your ride, post them on our FaceBook page. If you do not have a FaceBook account, send your pictures to me or John Surges. We will be glad to get them up on our site! Go to the community section of our FaceBook page to view the postings.

Our **club picnic** is coming up sooner that you think. It is on for **September 12th** at Lion's Legend Park in Franklin. See the flier inside.

The **Dick Doria Door County Color Run** is still on for **October 2nd** thru **October 4th**. Be sure you contact the **AmericInn** in Sturgeon Bay to guarantee your room. Also, be sure to inquire about housekeeping and other changes to their normal operating procedures. A lot of places are open in Door County. There are a few which have limited access and very few are closed. But the fall colors will still be there! Of course, **Susie's Place** will be another outstanding chicken dinner on our way north! **Be sure to contact Dave and Patti Hartley** so they have an accurate head count for both **Susie's Place** and the **Nightingale Supper Club**. Refer to the flier in the newsletter for contact information.

So, let's get out and enjoy the summer while it lasts. There are plenty of good car shows out there to check out! Find a car show in your area by visiting the Wednesday Night Classics web site for a calendar.

See you on the road!

Glenn

I got gas for \$1.39 today. Unfortunately, it was at Taco Bell.

A dad is washing the car with his son. After a moment, the son asks his father, "Do you think we could use a sponge instead?"

A senior citizen called her husband during his drive home.

"Herman, I just heard on the news that there's a car going the wrong way on Interstate 90, Please be careful!" Herman said, "It's not just one car. There's hundreds of them!"

Mustangs & Markers ^{+PLUS}

Get Going, Get out, Get'em while they're hot

How many times do we drive past the small brown historical site signs in this state? We drive right on by wondering what happened, but never take the time to actually read them and maybe learn some obscure, but interesting historical event that once happened there. What if Mustangers, while taking their car out to drive (gas is cheap) see a sign, stop to read what happened, take a picture of themselves and their Mustang in front of the marker, post the picture on the WEM Facebook page [WEM Facebook](#) (or send the pic to someone to post) as proof that you were actually there. [Historical Marker Map](#)

Mustangs & Markers ^{+PLUS}

In addition to the Wisconsin's great historic markers. We're going **Global**, from hometown landmarks to national monuments or terrific scenery. If you have a really cool picture or take a new one of your car with a neat if not notable background. Share your picture with others so we can all expand our horizons. If you wish include information about the picture, feel free to include things like date, location.

Cut

- 1 The first thing that you will need to do is measure where the bolt needs to be cut.
- 2 Mark the bolt where it needs to be cut with a sharpie marker.
- 3 Next, thread 2 nuts onto the bolt.
- 4 Thread the nuts so the that one of them lines up exactly where you need to cut the bolt (marker line).
- 5 Get the proper sized wrench and make sure the nuts are very tightly against each other so they do not move from the vibration.
- 6 Put the threaded end of the bolt into the drill and secure it as tight as you can.
- 7 Get a hacksaw blade and lay it on the marker line where you are going to cut.
- 8 Run the drill while holding the hacksaw firmly on the bolt cut line.
- 9 Keep holding pressure on the hacksaw blade until the bolt is cut in half. The two nuts will assist you to keep the blade steady. *When you unscrew the two nuts, they will clean off the burrs from the end of the cut bolt.*
