"A FEW TO PRESERVE THE BEST"

## THE FEEDBAG

From the Pres.

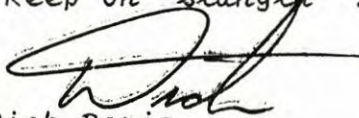

December 27, 1990

For those following my crazy heart problems, here's the latest. The scan part of the Thallium stress test showed some kind of "massing" near the heart. This made it necessary to have a heart catheterization to really see what's up. Had that Friday the 14th. Thankfully all looks good. No major blockage and good volume. So now we're back to finding out what causes the rev limiter to malfunction. Thanks again for all the calls and cards.

The mini-seminar on carburetion is still a go for Saturday the 5th of January. It will start at 10 A.M. at our house. (Club address) If you would like to attend, just give a call. (761-2267) We expect to spend two or three hours on the basic Ford/Autolite style carbs. Brian Popowski may bring a 4100 four barrel to reassemble. This will not be a "high tech" type of thing, but we will try to reinforce your basic understanding of carburetors. (or give you a basic understanding)

The new Bronco is doing well, even on carburetion. I've decided to find a 81-86 Town Car 302 with throttle body injection. This will be easier to set up and I won't have to move the A/C Pump as with the port injection set up. I think that Shar has put the grabs on this vehicle for the winter though. Haven't seen the '86 town car out of the garage, except for the nicest days.

We're getting excited about the new year and all the activities planned. Keep those "stangs safe and warm this winter, do the same for your selves. Have a Happy and Prosperous New Years. And yes, "Keep on 'stangin'".

*Fire up those VCR'S I have been notified that the airing of the restoration program on channel 10 & 36 is scheduled to start on Jan 19, 1991, check your paper for the time. This is a 13 part series on automobile restoration. The project car will be a 1966 Mustang convertible which was supplied by Marks Auto Body. Some of the filming took place in Marks shop. The following is the itinerary which will be followed during the 13 weeks:*

- WEEK 1 "THE PLAN": Things to consider before starting a restoration project.
- WEEK 2 "FINDING THE CAR": What to look for in a project car.
- WEEK 3 "FIX OR REPLACE": How to catalogue parts, & where to get new and used parts.
- WEEK 4 "PARTS AND TOOLS": A variety of air tools and restoration tools are reviewed.
- WEEK 5 "PAINT STRIPPING": How to safely use strippers for paint removal.
- WEEK 6 "METAL CUTTING": Removal of rust damaged body parts, repairing minor dents.
- WEEK 7 "PANEL FITTING": Panels are fitted to the car for welding in place.
- WEEK 8 "WELDING": Structural strength and the importance of welding patches for appearance.
- WEEK 9 "PLASTIC FILLING": Dent removal using various fillers are explained.
- WEEK 10 "PRIMING & SANDING": Preparation work for painting, paint mixing.
- WEEK 11 "PAINTING": A state of the art auto body and paint shop is visited.
- WEEK 12 "CLEAN, BUFF & TOUCH UP": Machine buffing with rubbing compounds is demonstrated.
- WEEK 13 "FINAL ASSEMBLY": Putting it all back together and detailing.

*Once again I am extending a plea for your help in supplying me with newsworthy articles to be used in the Feedbag. The incentive to do this will be the potential of winning a nice prize which will be given away at a drawing at our July meeting. For each article submitted you will have your named place in the drawing hat, the more articles submitted the better your chances of winning. Please assist me in this appeal.*

*Well that's it for another month. Hope to see you at one of our outings..*

*Until Next Month  
Fraternally Yours,

**1966 COUPE  
OWNER: RON NEISNER**

My '66 Tahoe Turquoise Mustang is an original Mississippi car that sports a 289 4 speed drive train. This car has never seen rust. It is equipped with a pony interior and a vinyl roof. Those of you who have been in the club for a few years may remember the wild Bi-Centennial restoration is had done to it in 1976. It had a wild red, white, and blue untamed exterior paint theme, as well as cam, aluminum 4V intake, headers, side exhausts, and oversize rear tires. My restoration included: New wheels, armid tires, clutch, and a stock exhaust system. Then Pete Yoss restored the outside, which included a more conservative stock paint. In 1990 I added a less wild cam and lifter set up

Definition of a windshield scraper: A plastic gadget that keeps falling out of the glove compartment all summer, hides under the seats in the winter, and breaks when you finally need to use it.

...

Tact is the ability to make guests feel at home when you wish they were.

## Cartoon Quips.

Used-car dealer to customer: "This one has very low mileage. The former owner only drove it when he could get it started."

—Wagner, North America Syndicate

Child returning home from school to parent: "Boy, talk about a stressful day! We had a math test, a spelling quiz and broccoli casserole for lunch."

—Norb Otto in *Woman's World*

Receptionist to salesman: "D'you wanna speak to the boss or to someone who knows what she's talking about?"

—James Unger, Universal Press Syndicate

Woman on phone, at auto mechanic's: "He hasn't told me what it'll cost, Harold, but he keeps whistling 'Happy Days Are Here Again.'"

—Bill Hoest in *National Enquirer*

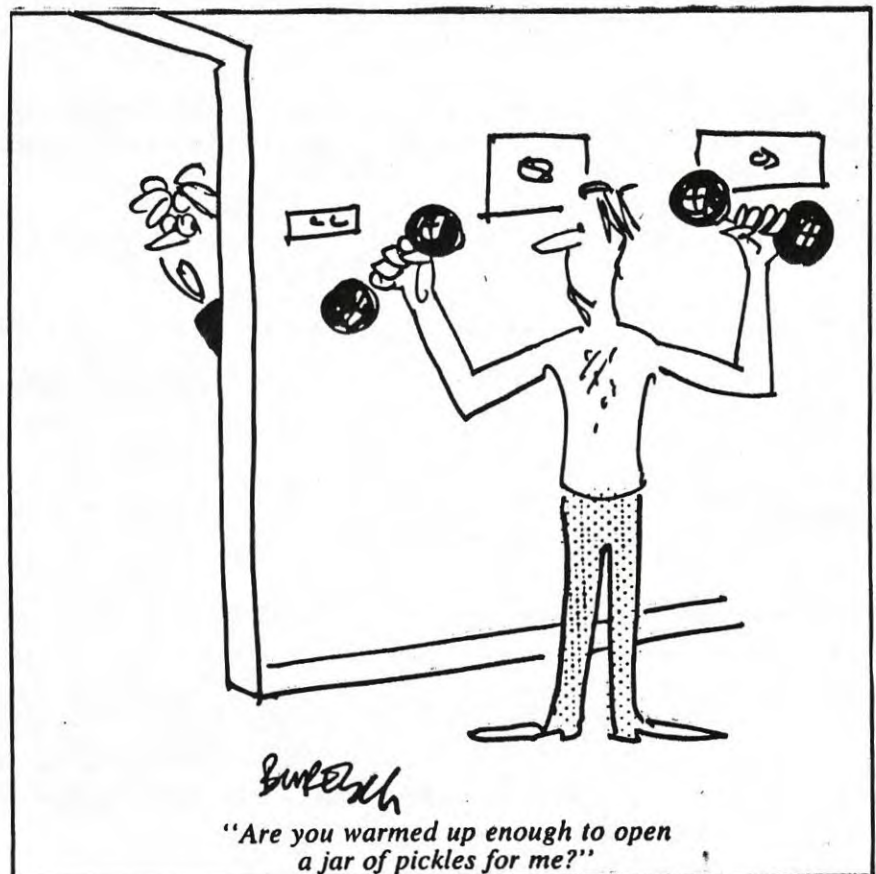

Man to friend in clothing store: "Every time I buy new pants, I find I'm in a different slacks bracket."

—Bob Thaves, Newspaper Enterprise Assn.

Woman to marriage counselor: "Of course we share the chores—I cook and he eats."

—J. Kohl in *Woman*

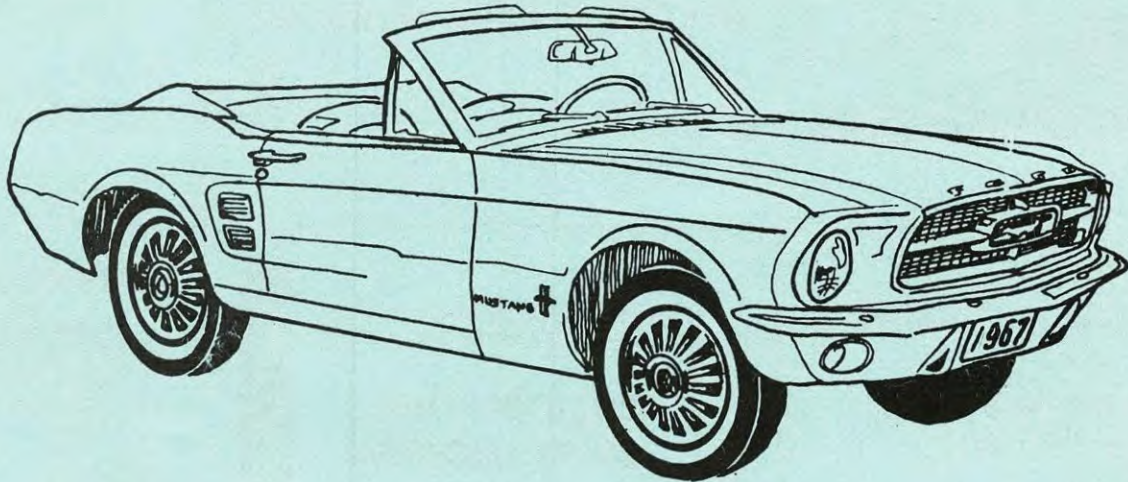

Physician to hospital patient: "Good news, Mr. Fornsby—a team of doctors think you're strong enough to see your bill!"
