The Wisconsin Early Mustangs

"A FEW TO PRESERVE THE BEST"

April 10, 1984

THE FEEDBAG

From the Pres:

It was a very cold night for April 2nd. The sun had just set in the west and the lights from the buildings cast an erie glow to the barnyard. I slipped into that all familiar seat, grabbed the sturdy Hurst shifter, sliced a chunk of neutral and dropped that heavy heavy clutch to the floor. A little touch on the gas pedal and then for the first time in five months a twist to that key worn smooth after twenty hard seasons. You barely heard the starter engage then, BOOM! 289 plus cubes of punched, polished and cammed cast iron ignite. I felt like a high school kid on his first date as I led "Old Red" the 20 miles back home. So my friends another season begins. Hope to spend much of it with all of you this year.

Look for the note which I have composed to the EPA in regard to the elimination of leaded regular gas. I suggest that each and every one of you send it, or one of your own composition to the EPA. Right Now! There is no more time to waste.

We will be ordering some of those Ford Mustang 20th Anniversary Posters. They will be sold to club members at \$4.00 each. That is quite a savings over the \$6.95 price elsewhere. And of course you know me, the club will make a little on each one of them.

Well now that Shar and I are back from vacation it's time to get that "stang" into shape. Got to get ready for that May 5th & 6th trip to the Mississippi River and LaCrosse area.

Keep in touch and above all "Keep on 'stangin'".

Menomonee Falls Memorial Day Parade Instructions

We will be meeting at 8:00am May 20th, at Bob Wroblewski's house. Address - N59 W18100 Spruce Lane, Menomonee Falls, Wisc. Map on how to get there below.

Saturday morning started off to be an unusual beginning of a road trip- it was sunny! We had a total of twelve cars, of which only two were Brand X. But we breathed a sigh of relief when a short but inevitable shower hit us just past Oconomowoc. By the time we stopped at the rest area on the way to Madison, almost everything was running smoothly, even the sunshine. But Dick's "Old Red" didn't want to leave or run, a minor condensation problem, rectified later by a can of Heet. And then Jerry Manning led part of our pack astray when he made a quick stop at American TV of Madison, thank goodness for C.B. radios.

The drive along the Mississippi was beautiful and especially interesting because of the high water level, Eddie's brake line leak, the barges and locks and dam, Tom's carburetor problem, beefalos, cranes (the kind that fly) and the Mississippi bluff scenic overlook, which some cars decided not to enjoy. LaCrosse was a welcome sight to finally see. We checked into the motel and enjoyed some inter-room mingling accompanied by drinks and snacks. Then it was time to go to Grandad's bluff, along the way to the 600 ft. top, some Mustangers even saw a couple of deer. At the top the view was fantastic and recommended to be seen at night also. Dinner followed with many eating at Duff's smorgasbord, and some regretting later that they ate too much.

The saturday night weather forecast called for rain sunday.

Sunday morning it was sunny again! After breakfast we went to the Old Style Auto Show, car entry was free including a very nice dash plaque. A mixture of vintage cars, some clouds, a W.E.M. club members Boss 302 (that wasn't with our group), the vendors, old parts, and the Oktoberfest grounds being an excellent show site, made for a good show. By a little before noon we were back on the road again. Most of us went back via the x-way, but some chose to take the great river road scenic route back. We even saw a herd of llamas, mostly sunny skies, and the site of K.P. duty- Camp Williams. After a stop at the rest area by Wisconsin Dells, for some drinks and snacks, it was time to mount back up and finish the trip home. All the while listening to the many interesting observations (mostly by our group) on the C.B. radio.

Everything added up to make another very enjoyable trip.
