

The Wisconsin Early Mustangs

"A FEW TO PRESERVE THE BEST"

This is the first time that we are using the Wordstar word processing capability of our new computer. It should make the task of meeting our monthly deadlines much easier. I am doing this part of our newsletter in my office in Franklin Park, Illinois. Once I get back to headquarters in Milwaukee I'll just pop the disk into our unit and get the printout on our letterhead. So, if you can read this we've done good.

I would like to give a big personal thanks to Kelly Beauparland who has been the club secretary for a pretty long time. She and "middle" Bob have given much of their own time to bring these newsletters to you on time each month. Due to family commitments she has sadly resigned her post. Words can't say enough. Job well done guys.

Everything appears to be ready for the year ender OTR to Door County. Shar has been arranging and rearranging for the last month. This year's group will be one of the biggest. It sure seems like we just got those ponycars out of hibernation and here it is fall already. Hope some of those pretty leaves are still on the trees for us next weekend. It really is a beautiful area up there.

Don't think that we have forgotten about those basic electrical articles. It has been a very hectic season without much spare time. So if they were doing you some good, you can look forward to seeing them later this year or early next. We probably will be going into instrumentation as the next topic. We'll also be talking to Pete and Mark about some more tech seminars.

Guess it's time to hit the trail. 5 A.M. will roll around pretty quick. Hope to hear some good news about Ed Baker. He had some personal fuel pump problems. Take care everybody, keep in touch and always "keep on 'stangin'".
